Dispute

Office work

- Attended weekly scheduling meeting with the contractor. See meeting minutes for detail. The earliest finish date is March 19, 2009 according to the schedule.
- Had a discussion with George. The anchor bolts for the lighting poles seem to be out of alignment for at least one bolt. He asked that we check to make sure the template used to verify the anchor bolt configuration on OTD1 is accurate. Some one who knows the stuff should be doing that. I said I would discuss this with Raj and Hazzaa.
- Talked to Ahmad and Jonathan. I asked Ahmad to take care of the Photo archiving. Also, asked him to double check the CCO log for accuracy of information. I asked Jonathan to help Ahmad to catch up.
- Talked to Laura Owens regarding Ahmad's pending case. I informed Laura that, outside the existing case, I do not intend to pursue an insubordination case against Ahmad and would like to give him another chance to see how he performs his work duties and my instructions.
